Wayne Jones

June 7, 2012

**UNCG Controller** 

Wayne,

We have four pieces of Tipping Point Security equipment that we no longer need and that are no longer in service at UNCG. This equipment has been replaced by more current technology. Other state agencies using this technology have requested them as these were costly equipment when originally purchased and can still be used by other agencies still running older technology.

We are requesting that we be allowed to transfer this equipment to the agencies as listed on the attachment so that the State of North Carolina can get the maximum use for its investment in this equipment.

An FA-13 for each of the proposed transfers is attached. Please let me know if this is acceptable

Telan Dashell

Thank you.

Victoria Gaskill
